We may also not be successful in procuring alternate guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows.

31. The COVID-19 pandemic, or any future pandemic or widespread public health emergency, could materially and adversely impact our business, financial condition, cash flows and results of operations.

In late 2019, COVID-19 emerged and by March 11, 2020 was declared a global pandemic by The World Health Organization. Governments and municipalities around the world instituted measures in an effort to control the spread of COVID-19, including quarantines, shelter-in-place orders, school closings, travel restrictions, restrictions on transport facilities, the migration of labours, lock down of cities and closure of non-essential businesses. Due to lock down Government has restricted to travel within India and outside India, due to which our business operations may be materially adversely affected by Covid-19.

Our company have faced challenges in doing business mainly government has restricted the people from travelling industry for the period of more than 2 months. The outbreak has significantly increased economic uncertainty. It is likely that the outbreak or continued spread of COVID-19 will cause an economic slowdown and it is possible that it could cause a global recession in future.

We have entered into certain transactions with related parties, which are in compliance with company law and other applicable law with our Promoter, Promoter Group, Directors and may continue to do so in future. Our Company has entered into such transactions due to easy proximity and quick execution. However, there is no assurance that we could have obtained better and more favorable terms than from transaction with related parties. Additionally, our company belief that all our related party transactions have been conducted on an arm's length basis, but we cannot provide assurance that we could have achieved more favorable terms had such transactions been entered with third parties. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse effect on results of our operations, although going forward, all related party transactions that we may enter will be subject to board or shareholder approval, as under the Companies Act, 2013 and the Listing Regulations. For details of transactions, please refer to "*Annexure 29*" *Related Party Transactions*" on page 129 of Restated Financial Information.

33. *There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.*

In terms of Regulation 41 of SEBI (ICDR) (Amendment) Regulations, 2022, as amended, appointment of monitoring agency is required only for Issue size above Rs. 100 cr. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of Listing Agreement. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the NSE.

34. *We have not identified any alternate source of financing the 'Objects of the Issue'. If we fail to mobilize resources as per our plans, our growth plans may be affected.*

For further details of object of Issue and schedule of implementation please refer to the chapter titled "*Objects of the Issue*" on page 53 of this *Draft Prospectus*.

35. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

36. *Our Promoter and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

Post this Issue, our Promoter and Promoter Group will collectively own [●] of our equity share capital. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

37. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed fund requirement, for funding our working capital requirements, primarily, as detailed in the chapter titled “Objects of the Issue” beginning on page 53 is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We, therefore, cannot assure that we would be able to execute our future plans/strategy within the estimated time frame.

39. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised, and may be subject to change based on various factors, some of which are beyond our control.*

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions, and have not been appraised by any bank or financial institution or another independent agency. Furthermore, in the absence of such independent appraisal, our funding requirements may be changed subject to the approval of shareholders by passing special resolution pursuant to section 27 of Companies Act, 2013 through postal ballot or subject to an authority given by the Company in general meeting by way of special resolution and based on various factors which are beyond our control. For further details, please see the section titled “Objects of the Issue” beginning on page 53 of this Draft Prospectus.

40. *Any future issuance of Equity Shares may dilute the shareholding of the Investor or any sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any future issuance of Equity Shares by our Company could dilute the shareholding of the investor. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares and could impact our ability to raise capital through an offering of our securities. While the entire post-Issue paid-up share capital, held by our Promoters or other shareholders will be locked-in for a period of 1 (one) year and minimum promoter contribution subject to a minimum of 20% of our post-Issue paid-up capital will be locked-in for a period of 3 (three) years from the date of allotment of Equity Shares in the Issue, upon listing of our Equity Shares on the Stock Exchanges. For further information relating to such Equity Shares that will be locked-in, please refer to the section titled “Capital Structure” beginning on page 44 of the Draft Prospectus. Any future issuance or sale of the equity shares of our Company by our Promoter or by other significant shareholder(s) or any perception or belief that such sales of Equity Shares might occur may significantly affect the trading price of our Equity Shares.

41. The issue price of the Equity Shares may not be indicative of market price of our equity shares after the issue and the market price of our Equity shares may decline below the issue price.

The issue price of our Equity shares is decided on the basis of both qualitative and quantitative factors. The Company had made good progress in establishing its name in the readymade garment segment. All such points have been considered in deciding the issue price of the Equity Shares. Please refer chapter titled “Basis for Issue Price” beginning on the page 59 of the Draft prospectus. The market price of our equity shares could be subject to change after the issue and may decline the below the issue price.

42. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholder’s investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, please refer the section titled ‘Dividend Policy’ beginning on page 105 of this Draft Prospectus.

43. Sale of shares by our promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

The sale of shares by the promoters or other significant shareholder(s) may significantly affect the trading price of our Equity shares. Further the market price generally may be adversely affected on account of the news about the sale of shares by the promoters. However, the closing of trading windows during the period of financial results may restrict the promoters from selling the shares in the open market.

44. Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

45. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of NSE (NSE Emerge) in a timely manner or at all.

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of NSE (NSE Emerge). Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

46. The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

47. There are restrictions on daily weekly monthly movement in the price of the equity shares, which may adversely affect the shareholder's ability to sell for the price at which it can sell, equity shares at a particular point in time.

Once listed, we would be subject to circuit breakers imposed by the stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index- based market-wide circuit breakers generally imposed by SEBI. The percentage limit on circuit breakers is said by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchange does not inform us of the percentage limit of the circuit breaker in effect from time to time, and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of the circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

48. Any future issuance of Equity Shares may dilute the shareholding of the Investor or any sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any future issuance of Equity Shares by our Company could dilute the shareholding of the investor. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may adversely affect the trading price of our Equity Shares and could impact our ability to raise capital through an offering of our securities. While the entire post-Issue paid-up share capital, held by our Promoters or other shareholders will be locked-in for a period of 1 (one) year and minimum promoter contribution subject to a minimum of 20% of our post-Issue paid-up capital will be locked-in for a period of 3 (three) years from the date of allotment of Equity Shares in the Issue, upon listing of our Equity Shares on the Stock Exchanges. For further information, relating to such Equity Shares that will be locked-in, please refer to the section titled "Capital Structure" beginning on page 44 of this Draft Prospectus. Any future issuance or sale of the equity shares of our Company by our Promoter or by other significant shareholder(s) or any perception or belief that such sales of Equity Shares might occur may significantly affect the trading price of our Equity Shares.

INDIAN ECONOMY GROWTH

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Real GDP at constant prices (2011-12) in the first quarter of 2023–24 is estimated at Rs. 40.37 trillion (US\$ 484.94 billion), showing a growth of 7.8% as compared to the first quarter of 2022-23 estimated at Rs. 37.44 trillion (US\$ 449.74 billion). Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022–2023. In 2023-24 (April-September), India's service exports stood at US\$ 164.89 billion. Furthermore, India's overall exports (services and merchandise) in 2023-24 (April-September) were estimated at US\$ 376.29 billion. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-December 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable as a result of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 301.75 trillion (US\$ 3.62 trillion) in 2023-24. Additionally, the Nominal GDP at current prices in Q1 of 2023-24 was Rs. 70.67 trillion (US\$ 848.92 billion), as against Rs. 65.42 trillion (US\$ 785.85 billion) in 2022-23, estimating a growth of 8%. With 115 unicorns valued at more than US\$ 350 billion, as of February 2023, India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

TRAVELLERS & TOURISM FROM INDIA

India is blessed with abundant talent and skills that can be utilized in the global workplace. Our people increasingly travel abroad, whether it is in the quest for education, the search for work or the execution of services. At the same time, travellers and tourists from India have also increased, reflecting our growing interest in other countries and regions.

The Ministry of External Affairs has the responsibility for issuing Passports to Indian citizens. It also renews Passports to those living abroad, while rendering other Consular services that are required for their livelihood and education. Since 2014, it has been the Modi Government's priority to make it easier for the average Indian to obtain and renew Passports, both at home and abroad. This has been done through a series of reforms across the entire chain, starting with more centres for application, easier paper work, faster processing and more efficient delivery.

Indians abroad, whether on a longer-term stay or a short duration visit, are a special responsibility for the Government. It has again been the approach of the Modi Government that we must reach out to Indians in distress, however difficult the circumstances. Sometimes, this has been demonstrated dramatically through rescue and relief operations. But the day-to-day processes to assist Indians are even more important, precisely because they apply everywhere everyday. Expanding resources, reforming their application and changing the mindset and work culture of Embassies abroad have all been part of this change. The usage of digital platforms and tools to this end has been particularly notable.

Today, we can sincerely and proudly state that there has been a real transformation in not only facilitating the travel of Indians abroad but in assisting them at their moment of need. This was graphically demonstrated during the Covid-19 pandemic, including through the organization of the *Vande Bharat Mission*.

Our endeavour would be to constantly improve Passport and Consular services and ensure not only greater ease of travel for all Indians but also greater security of travel.

The Act also provides for a mechanism to appeal in case the person brought into India is aggrieved by any of the orders passed by the competent authority. The act empowers the central government to take strict action and make any rules or bylaws.

The Indian Contract Act, 1872

The Indian Contract Act (“**Contract Act**”) codifies the way in which a contract may be entered into, executed, the implementation of the provisions of a contract, and the effects of a breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced. It provides a framework of rules and regulations that govern the formation and performance of contracts. The Information Technology Act, 2000 (the “**IT Act**”) creates a liability on a body corporate which is negligent in implementing and maintaining reasonable security practices and procedures, and thereby causing wrongful loss or wrongful gain to any person, while possessing, dealing with, or handling any sensitive personal data or information in a computer resource owned, controlled or operated by it but affords protection to intermediaries with respect to third party information liability. The IT Act also provides for civil and criminal liability including compensation, fines, and imprisonment for various computer related offences. These include offences relating to unauthorised disclosure of confidential information and committing of fraudulent acts through computers, tampering with source code, unauthorised access, publication or transmission of obscene material etc. The IT Act empowers the Government of India to formulate rules with respect to reasonable security practices and procedures and sensitive personal data. Additionally, the IT Act empowers the Government of India to direct any of its agencies to intercept, monitor or decrypt any information in the interest of sovereignty, integrity, defence and security of India, among other things.

The Specific Relief Act, 1963 (the “Act”)

The Act is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for the purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means the Court will ask the party to perform his part of the agreement, instead of asking him to pay damages to the other part.

Municipality Laws

Section 138 of the Act, creates statutory offence in the matter of dishonor of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two years, or with fine which may extend to twice the amount of the cheque, or with both.

Consumer Protection Act, 2019 (the “Consumer Protection Act”)

The Consumer Protection Act, which repeals the Consumer Protection Act, of 1986, was designed and enacted to provide simpler and quicker access to redress consumer grievances. It seeks, inter alia to promote and protect the interests of consumers against deficiencies and defects in goods or services and secure the rights of a consumer against unfair trade practices, which may be practiced by manufacturers, service providers, and traders. The definition of “consumer” has been expanded under the Consumer Protection Act to include persons engaged in offline or online transactions through electronic means or by tele-shopping direct-selling or multi-level marketing. One of the substantial changes introduced by the Consumer Protection Act is the inclusion of the e-commerce industry under the Consumer Protection Act with “e-commerce” defined to refer to the buying and selling of goods or services over digital or electronic networks. Therefore, the Consumer Protection Act aims to cover entities that are involved in the process of selling goods or services online. It provides for the establishment of consumer dispute redressal forums and commissions for the purposes of redressal of consumer grievances. An application for trademark registration may be made by individual or joint applicants and can be made on the basis of either use or intention to use a trademark in the future. Once granted, trademark registration is valid for ten years, unless cancelled, and may be renewed indefinitely upon payment of renewal fees every ten years. If not renewed after ten years, the mark lapses and the registration has to be restored. The Trade Mark (Amendment) Act, 2010 has been enacted by the Government to amend the Trade Mark Act to enable Indian nationals as well as foreign nationals to secure simultaneous protection of trademark in other countries. It also seeks to simplify the law relating to transfer of ownership of trademarks by assignment or transmission and to align the law with international practice.

In March 2017, the Trade Marks Rules, 2017 (“**Trade Mark Rules**”) were notified, in supersession of the Trade Marks Rules, 2002. The Trade Marks Rules brought with them some changes in the application process, in terms of an increase in application fees and common formats for multiple kinds of applications. However, the e-filing process has been incentivized by providing lower application fees.

It is authorized to periodically formulate the Indian Foreign Trade Policy, 2015-20 (“**Foreign Trade Policy**”) and amend it thereafter whenever it deems fit. All exports and imports are required to be in compliance with this policy. The Foreign Trade Policy provides for certain schemes for the promotion of the export of finished goods and import of inputs. The Foreign Trade Act, read with the Foreign Trade Policy, also provides that no person or company can make exports or imports without having obtained an importer-exporter code (IEC) number unless such person or company is specifically exempted. All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013

b. Use of Estimates

The preparation of the financial statements in conformity with GAAP requires Management to make estimates and judgments that affect the reported balances of assets and liabilities and disclosure relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period for the periods presented.

Management believes that the estimates used like Net realizable value of Inventories etc. in the preparation of financial statements are prudent and reasonable. Future results could differ from these estimates.

The following significant accounting policies are adopted in the preparation and presentation of these financial statements:

2.01. Revenue Recognition

Income from Services:

Revenues from contracts priced on a per activity basis are recognised on completion of the activity and those based on time and material basis are recognised when services are rendered and related costs are incurred.

2.02. Other Income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

2.03. Property, Plant and Equipment

Property, Plant and Equipment ("PPE") are stated at cost of acquisition inclusive of expenses directly attributable / related to the acquisition/ construction/erection of such assets. GST and other applicable taxes paid on acquisition of property, plant and equipment are capitalized to the extent not available/ utilizable as input tax credit under GST or other relevant law in force.

Expenditure incurred on renovation and modernization of PPE on completion of the originally estimated useful life resulting in increased life and/or efficiency of an existing asset, is added to the cost of the related asset. In the carrying amount of an item of PPE, the cost of replacing the part of such an item is recognized when that cost is incurred if the recognition criteria are met. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition principles.

After initial recognition, PPE is carried at cost less accumulated depreciation/amortization and accumulated impairment losses, if any

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognized.

Intangible Assets

Intangible assets are recognised at acquisition cost when the asset is identifiable, non monetary in nature, without physical substance and is probable that such expenditure is to result in future economic benefits to the entity.

Any gain or loss arising on such Derecognition is measured as the difference between the net disposal proceeds and the carrying amount of the asset, and is recognized in statement of profit or loss. Other intangible assets relates to technical know-how, and non-compete.

Capital Work In Progress

Capital work in progress is stated at cost, net of impairment losses, if any. Cost comprises of the cost of items of PPE not yet commissioned, incidental pre-operative expenses and borrowing costs.

Intangible Assets Under Developments

Intangible assets under development consists of cost capitalized since the development costs are measurable reliably, the product or process is technically, and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use the asset. The expenditure capitalized includes the cost of purchase of license, direct labour and overheads costs that are directly attributable to preparing the asset to its intended use.

Depreciation and Amortization

Property Plant and Equipment and Intangible Assets

Depreciation on Property, Plant and Equipment and Intangible Assets is recognised in profit or loss using 'Written Down Value Method'. Depreciation is provided based on useful life of the assets as prescribed in schedule II of the Companies Act, 2013. Depreciation is charged proportionately from/to the date of acquisition/disposal.

Following table provides the details of useful lives of the items of PPE:

Nature of Assets	Estimated useful life
Plant & Machineries	15 Years

Computer & Printers	3 Years
Furniture & Fixtures	10 Years
Vehicles	8 Years
Office Buildings	60 Years
Computer Software	3 Years

The depreciation methods, estimated useful lives, and residual values of the PPE are reviewed at the end of each reporting period. The effect of changes in these estimates is accounted on a prospective basis.

2.04. Impairments

The Company assesses at each reporting date as to whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

2.05. Investments

Long term investment are stated at cost less amount written off, where there is a diminution in its value of long term nature. Current investments are stated at lower of cost and fair value. Gain or loss arising from sale or disposal of such investment is accounted at the time of actual sale or disposal.

2.06. Cash & Cash Equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

2.07. Employee Benefit

Short Term Employee Benefits

The short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

Post-Employment Benefits Defined Contribution Plans

The company has no policy of encashment and accumulation of leave. Therefore, no provision of leave Encashment is made. Company's contribution to Provident Fund and other Funds for the year is accounted on accrual basis and charged to the Statement of Profit & Loss for the year.

Defined Benefits Plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions.

All assumptions are reviewed at each reporting date.

The company has recognized the gratuity payable to the employees as defined benefit plans. The liability in

respect of these benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

2.08. Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

The Company has not acquired any eligible assets in pursuance of AS 16. Hence no borrowing cost is capitalised during the year.

2.09. Foreign Currency Transactions

Transactions in foreign currencies are recorded in Indian Rupees using the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, recorded monetary balances are reported in Indian Rupees at the rates of exchange prevailing at the balance sheet date. All realised and unrealised exchange adjustment gains and losses are dealt with in the profit and loss account.

2.10. Accounting For Taxes On Income

- I. Current tax is determined as the amount of tax payable in respect of taxable income for the year.
- II. Deferred Tax is recognised, on timing difference, being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.
- III. Where there is unabsorbed depreciation or carry forward losses, deferred tax assets are recognized if there is virtual certainty that sufficient future taxable income will be available against which such assets can be realized. Other deferred tax assets are recognized only to the extent there is reasonable certainty of realization in future. Such assets are reviewed at each Balance sheet date to reassess realization.
- IV. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

2.11. Provisions And Contingent Liabilities

Provision

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made

Contingent Assets

Contingent assets are not recognized but disclosed when the inflow of economic benefits is probable. However, when the realization of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognized as an asset.

2.12. Cash Flow Statement

Cash Flow Statement is prepared in accordance with the Indirect Method prescribed in the relevant

Accounting Standard. For the purpose of presentation in the cash flow statement, cash and cash equivalents includes cash on hand and other highly liquid investments with maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.13. Earnings Per Share

Basis of earning per share are calculated by dividing the net profit or loss for the period attributable to equity shareholder by the weighted average number of equity share outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholder and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive equity shares.

2.14. Segment Reporting

Company is operating under a single segment.

2.15. Leases

Operating Leases

Leases where the lesser effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and loss on straight-line basis over the lease term.
