**5. Projects included in our order book and our future projects may be delayed, modified or cancelled for reasons beyond our control which may materially and adversely affect our business, prospects, reputation, profitability, financial condition and results of operation.**

As of December 31, 2022, our order book was ₹ 18442.91 lacs. Our order book sets forth our expected revenues from uncompleted portions of the construction contracts received. However, project delays, modifications in the scope or cancellations may occur from time to time due to either a client's or our default, incidents of force majeure or legal impediments. For example, in some of our projects, we or our clients are obliged to take certain actions, such as acquiring land, making advance payments or opening of letters of credit or moving existing utilities, which may be delayed due to our client's non-performance, our own breaches or force majeure factors. In an EPC project, we may incur significant additional costs due to project delays and our counterparties may seek liquidated damages due to our failure to complete the required milestones or even terminate the construction contract totally or refuse to grant us any extension. The schedule of completion may need to be reset and we may not be able to recognize revenue if the required percentage of completion is not achieved in the specified timeframe.

We may not have the full protection in our construction contracts against such delays or associated liabilities and/or additional costs. Further, we may have escalation clauses in some of our contracts, which, may be interpreted restrictively by our counterparties, who may dispute our claims for additional costs. As a result, our future earnings may be different from the amount in the order book. Due to unexpected changes in a projects scope and schedule, we cannot predict with certainty when or if expected revenues as reflected in the order book will be achieved. In addition, even where a project proceeds as scheduled, it is possible that contracting parties may default and fail to pay amounts owed or receivables due. If any or all of these

risks materialize, our business, prospects, reputation, profitability, financial condition and results of operation may be materially and adversely affected.

**6. Our company avails various credit facilities from the Bank and as per sanction terms there are certain restrictive covenants imposed on the issuer company.**

**7. Our financing agreements with banks require prior consent of our lenders for undertaking a number of corporate actions, including the Issue, and such consent has not been obtained as on date of this Draft Prospectus.**

Under some of our financing agreements, we are required to obtain prior written consents from the respective lenders to Change Management/ Capital Structure, formulate any scheme of Merger/Acquisition/ amalgamation/ reconstitution, create any further charge, lien, encumbrances over the asset charged to the bank in favor of any other bank, financial institution, NBFC, Firm, Company or person or otherwise dispose off any of the fixed assets.

As on the date of this Draft Prospectus, we have applied for such consents for the Issue from our lenders and have yet to receive consent from Bank of Baroda and AXIS Bank. While our Company intends to obtain the necessary consent in relation to the Issue from such lender prior to the filing of the Prospectus with the RoC,

In the event, we are unable to generate or maintain adequate revenue by successfully bidding for projects or recover payments from our clients in a timely manner or at all, it could have a material adverse effect on our financial condition and operations.

Further, we maintain a workforce based upon our current and anticipated workloads. If our Company does not receive future contract awards or if these awards are delayed, it could incur significant costs in the interim. Our estimate of the future performance depends on, among other things, whether and when we will be awarded new contracts

**9. We have experienced negative cash flows in previous years / periods. Any operating losses or negative cashflows in the future could adversely affect our results of operations and financial condition.**

Our Company had negative cash flows from our operating activities, in the previous years as per the Restated Financial Statements and the same are summarized as under.

**10. Our business could be adversely affected if we fail to keep pace with technological developments in the construction industry.**

Our recent experience indicates that our clients are increasingly developing larger, more technically complex projects using more advanced technologies. Our future success will depend, in part, on our ability

to respond to technological advances and emerging technology standards and practices on a cost-effective and timely basis. To meet our clients' needs, we must continuously update our existing systems and develop new technologies for our construction projects. In addition, rapid and frequent technological and market demand changes can often render existing technologies and equipment obsolete and result in requirements for additional and substantial capital expenditures and/or significant write downs of our assets. The cost of upgrading or implementing new technologies, upgrading our existing equipment or expanding capacity could be significant. If we fail to anticipate or respond adequately to our clients' changing requirements or keep pace with the latest technological developments, our business, prospects, financial condition and results of operations may be materially and adversely affected

We have entered into certain transactions with related parties with our Promoter, Promoter Group, Directors, their relatives, Group Entities and may continue to do so in future. However, there is no assurance that we could not have obtained better and more favorable terms than from transaction with related parties. Additionally, our company belief that all our related party transactions have been conducted on an arm's length basis, but we cannot provide assurance that we could have achieved more favorable terms had such transactions been entered with third parties. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse affect on results of our operations, although going forward, all related party transactions that we may enter will be subject to board or shareholder approval, as under the Companies Act, 2013 and the Listing Regulations. For details of transactions, please refer to "Annexure 35" *Related Party Transactions*" on page 120 of Restated Financial Information.

**12. We have unsecured loans from directors and relatives of directors and other, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations.**

As per our restated financial statements, as on September 31, 2021 we have unsecured loan of ₹1318.76 lakhs from erstwhile director and from others which is repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our liquidity and business operations. Our Promoter are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Entities. For further details, please refer to the chapters titled "*Business Overview*" and "*Our Promoters and Promoter Group*", beginning on page 75 and 119 respectively and the chapter titled "*Annexure 35 - Related Party Transactions*" under chapter titled "*Restated Financial Statements*" beginning on page 120 of this Draft Prospectus.

**15. Sale of shares by our promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.**

The sale of shares by the promoters or other significant shareholder(s) may significantly affect the trading price of our Equity shares. Further the market price generally may be adversely affected on account of the news about the sale of shares by the promoters. However the closing of trading windows during the period of financial results may restrict the promoters from selling the shares in the open market.

**16. The issue price of the Equity Shares may not be indicative of market price of our equity shares after the issue and the market price of our Equity shares may decline below the issue price.**

The issue price of our Equity shares is decided on the basis of both qualitative and quantitative factors. The Company had made good progress in establishing its name in the Infrastructure sector. All such points have been considered in deciding the issue price of the Equity Shares. Please refer chapter titled "Basis for Issue Price" beginning on page no 63 of the Draft prospectus. They currently serve as our Managing Director and director, respectively and their experience and vision had played a key role in obtaining our current reputation and status in the market. We would depend significantly on our Key Managerial Persons for continuing our business operations successfully. If any member of the senior management team is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

**19. We have not identified any alternate source of financing the 'Objects of the Issue'. If we fail to mobilize resources as per our plans, our growth plans may be affected.**

**20. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.**

Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

**21. Our Promoter and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.**

Post this Issue, our Promoter and Promoter Group will collectively own 66.76 % of our equity share capital. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

**22. We have not independently verified certain data in this Draft Prospectus.**

We have not independently verified data from the Industry and related data contained in this Draft Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. ### **The Indian Contract Act, 1872**

The Indian Contract Act occupies the most important place in the Commercial Law. Without contract Act, it would have been difficult to carry on trade or any other business activity and in employment law. It is not only the business community which is concerned with the Contract Act, but it affects everybody. The objective of the Contract Act is to ensure that the rights and obligations arising out of a contract are honored and that legal remedies are made available to those who are affected.

### **The Registration Act, 1908**

Registration Act was introduced to provide a method of public registration of documents so as to give information to people regarding legal rights and obligations arising or affecting a particular property, and to perpetuate documents which may afterwards be of legal importance, and also to prevent fraud. Registration lends inviolability and importance to certain classes of documents.

## **INTELLECTUAL PROPERTY RELATED LAWS**

### **The Trade Marks Act, 1999**

Indian trademark law permits the registration of trademarks for goods and services. The Trade Marks Act, 1999 ("Trademark Act") governs the statutory protection of trademarks and for the prevention of the use of fraudulent marks in India. An application for trademark registration may be made by individual or joint applicants and can be made on the basis of either use or intention to use a trademark in the future. Once granted, trademark registration is valid for ten years, unless cancelled. If not renewed after ten years, the mark lapses and the registration has to be restored. The Trademark (Amendment) Act, 2010 has been enacted by the government to amend the Trademark Act to enable Indian nationals as well as foreign nationals to secure simultaneous protection of trademark in other countries. It also seeks to simplify the law relating to transfer of ownership of trademarks by assignment or transmission and to align the law with international practice.

### **The Patents Act, 1970**

The Patents Act, 1970 (“**Patents Act**”) governs the patent regime in India. Being a signatory to the Agreement on Trade Related Aspects of Intellectual Property Rights, India is required to recognise product patents as well as process patents. In addition to broad requirement that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. The Patents Act prohibits any person resident in India from applying for patent for an invention outside India without making an application for the invention in India. The term of a patent granted under the Patents Act is for a period of twenty years from the date of filing of the application for the patent.

### **The Copyright Act, 1957**

The Copyright Act, 1957 (“**Copyright Act**”) governs copyright protection in India. Under the Copyright Act, a copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. While copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration constitutes *prima facie* evidence of the particulars entered therein and may expedite infringement proceedings. Once registered, copyright protection of a work lasts for a period of sixty years from the demise of the author. Reproduction of a copyrighted work for sale or hire, issuing of copies to the public, performance or exhibition in public, making a translation of the work, making an adaptation of the work and making a cinematograph film of the work without consent of the owner of the copyright are all acts which amounts to an infringement of copyright.
